

SINGLE PARENTS EMPOWERED INC (SPE)

501(c)(3) Nonprofit Organization EIN: 83-0902535

In a time of mass unemployment, civil unrest and COVID-19; Single Parents Empowered Inc - DFW is a 501(c)(3) nonprofit organization that is seeking to develop a transitional single parent housing community for single parents and their children. These parents and their children will adhere to case management services by an experienced social worker to help the single parents and their children progress forward (example: job resources, school resources, tutoring, referrals and collaboration with other nonprofits etc., parenting classes and financial planning). We will also be able to provide shelter and resources to our single parent Veterans. Currently, we are going through the grant writing process to obtain funding and reaching out to the City of Dallas and Grand Prairie. We are interested in also partnering with a Developer that will assist in developing the land that will be utilized by the compact transitional homes from. This project is approximately a \$700k project (at the high end if we can get 10 homes). This includes the ready to go homes, which are 50k each, land purchase and development of land. These compact sized homes are amazing for emergencies such as natural disasters.

Sincerely,

Founder and CEO

Patonia Rhule

(Army Veteran & Single Parent)
